

Blockchain,  
**Beyond Boundaries**

# From **WigoSwap** to **Wigo Ecosystem**

Wigo started as WigoSwap, a Fantom-based DeFi platform. As the digital world grew, our vision broadened. Now, we're evolving from just DeFi to the diverse Wigo Ecosystem, combining DeFi, NFTs, and gaming into one user-centric universe. Dive into this whitepaper V2 to explore our expansive journey.

DeFi Meets Play; NFTs Become Experience

# Diverse, Dynamic, and Decentralized

Wigo combines the power of DeFi, with WigoSwap, and the immersive world of WigoGalaxy where users play, learn, and earn. Bazaar, our NFT marketplace, redefines asset trade and value. WigoPlay adds depth, merging DeFi, gaming, and NFTs into a unified user experience. In Wigo, everything interconnects seamlessly.

Inflating Opportunities, Deflating Risks

## Galaxy Burn Module (GBM)

GBM, previously the Gamified Burning Mechanism, safeguards \$WIGO DeFi tokens' future. It's not just about controlling inflation; GBM is the pulse of WigoGalaxy, automating \$WIGO burns. More action in WigoGalaxy means less \$WIGO inflation, better rewards, and diverse NFT applications, resulting in a robust economy. \$WIGO's hard cap is 2B, minting at 9 WIGO/sec exclusively for providers on \$WIGO, \$FTM, and \$USDC tokens. These farms, without exceptions, are immersed in WigoGalaxy's narrative gameplay.

A Universe Beyond Boundaries

# WigoGalaxy: Infinite Odyssey

WigoGalaxy is more than a game; it's a tool designed to boost adoption, starting with the Fantom ecosystem and then expanding multichain. In this universe, users don't just play; they explore, unlock, and craft their stories. Through Sagas, Nebulas, and tools like Wiggies, Monsters, and Cards, the WigoGalaxy experience is about growth, learning, and most importantly, broadening horizons.

Dive, Discover, Define Your Journey

# Galaxy Mechanics - The Blueprint

WigoGalaxy is all about choice and discovery. Through Sagas and Nebulas, users face challenges intertwined with tales, earning rewards along the way. With Wiggies as allies, and the special powers of Rare Wiggies, navigating this universe becomes a thrilling adventure. Tackling Monsters and unlocking Treasures requires strategy, using Candies, Keys, and Cards. XPs mark your growth, and with Galaxy ID, each journey is personalized, offering unique challenges and surprises.

Unique Identities, Unmatched Experiences

# Galaxy ID: Personalize Your Path

With Galaxy ID, WigoGalaxy ensures your journey is unmistakably yours. By minting personalized usernames and Wiggies, users create their distinct footprint. Beyond a name, it's a key to exclusive Nebulas, special treasures, and collective quests. Whether you're from Planet Boredomia, Westerium, or Ghosterium, Galaxy ID lets you shape and own your adventure, with exclusive rewards awaiting your discovery.

Commerce, Collectibles, and Community

## Bazaar: Heartbeat of the Ecosystem

Bazaar is Wigo's bustling digital hub, more than just an NFT marketplace, it's the pulse of the Wigo economy. Here, assets like Wiggies and XPs aren't merely traded; they symbolize each user's journey. Bazaar amplifies liquidity, flexibility, and user empowerment, going beyond transactions to nurture connections and champion the ethos of a decentralized Wigo future.

From Digital Companions to Tokens of Progress

## Bazaar's Assets

Wiggies are more than collectibles; they narrate journeys. Cards and Keys unlock WigoGalaxy's mysteries, while Candies enable unique interactions. Soon, XPs, badges of one's achievements, will enrich this vibrant bazaar. Each asset tells a story, showcasing Wigo's dedication to innovation and inclusiveness.

Play meets Purpose, Gamers fuel Growth

# WigoPlay: The Gaming Gateway

WigoPlay bridges entertainment with impact. While the mini-game 'Predict' offers fun, the upcoming 'Raffle' promises more excitement. But WigoPlay is more than just games—it's a catalyst for GBM, promoting sustained economic vigor. Soon, developers can launch games here, tapping into WigoGalaxy's vast utilities and sharing GBM revenues. The goal? Seamless gaming experiences, economic growth, and the perfect blend of fun and function.

Decentralized Workforce

# DeTasker

DeTasker reshapes the traditional job landscape, blending work with blockchain's decentralized nature. In this next Wigo feature, tasks become chances to earn tokens, bypassing borders and middlemen. It's an inclusive platform where skills translate directly into rewards. As users engage with DeTasker, they unlock special opportunities within WigoGalaxy. Here, every completed task paves the way for a limitless, unified future.

Bridging Ideas, Identities, and Impact

## The Next Wave: WigoRun, WiLink, & WiHee

WigoRun redefines launchpads, melding entrepreneurial spirit with WigoGalaxy's dynamics. WiLink, more than a domain, anchors your digital identity in the Wigo metaverse, enriching connections and rewards. WiHee, meanwhile, rejuvenates the meme coin ethos, channeling community energy towards WigoRun campaigns and amplifying the Wigo Ecosystem.
